VOXMICRO REACH & SVHC Compliance Statement

VOXMICRO LTD Group (“VOXMICRO”) is fully committed to the wide adoption of RF modules and their related technologies and configurations, that respect and comply with regulatory guidance in the largest possible number of territories and applications.

The EU REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (EU REACH) outlines the various obligations applicable to VOXMICRO's products and the requirements regarding articles. Specifically, EU REACH requires us:

- To inform recipients if an article placed on the European market contains a Substance of Very High Concern (SVHC) in excess of 0.1 % by weight. SVHCs are identified on the European Chemical Agency (ECHA) website;
- To notify ECHA if an article contains an SVHC in excess of 1000ppm by weight and the total amount of the SVHC present in all articles produced or imported to the European market exceed one metric ton per year;
- To cease shipment of articles containing EU REACH Annex XIV Substances Subject to Authorization unless authorization has been obtained; and,
- To cease shipment of articles containing EU REACH Annex XVII substances when restrictions apply.

Having evaluated supplier certifications and material composition declarations, as well as VOXMICRO's specifications, VOXMICRO has, to the best of its knowledge and belief, determined that:

- Except if noted in an attached appendix, VOXMICRO's products do not contain the substances within the 241 entries currently on the SVHC Candidate List in excess of 0.1 % by weight per article as published by ECHA with latest publication date June 27, 2024;
- The weight of the SVHC candidate substances (see attached appendices) contained in VOXMICRO products shipped into the EU has not exceeded one metric ton per year and annual reporting to ECHA is not required;
- VOXMICRO products do not contain the substances within the 59 entries subject to authorization under EU REACH Annex XIV as published by ECHA with latest publication date April 11, 2021;
- VOXMICRO products do not contain any of the substances above the maximum limits under the given applications in Annex XVII of the EU REACH Regulation.

As REACH regulation is updated frequently, and in case of effective and affecting changes, such as the addition of SVHC substances, or the addition of restricted substances, VOXMICRO will evaluate and further revise in time and update this declaration to reflect such changes.
